

SPECIALIZED CLINIC GROUP ACCREDITATION

To continue to support professionals trained by **The Running Clinic**, we have developed a network of **“Certified”**, **“Certified+”** and **“Expert” Professionals**, as well as **Specialized Clinics**.

The **“SPECIALIZED CLINIC”** status is a group recognition. It can be acquired by independent entities that offer specialized services aimed at runners. It indicates that your clinic stands out for the quality of its care and its desire to remain up to date. The advantages offered by this status ensure that you maintain a high level of clinical competence and increase your influence within your community.

“CERTIFIED+” ACCREDITATION

All the professionals working within your clinic who have completed our seminar 1.0 automatically see their status be upgraded from “Certified” to “Certified+”. This accreditation provides them with full access to the following individual benefits.
